

THE SCIENTIFIC REPORTS OF THE KYOTO
PREFECTURAL UNIVERSITY
AGRICULTURE NO. 24

Contents

Agriculture

- Induction of haploid plant by anther culture in maize I
On the callus formation and root differentiation
.....M. MURAKAMI, N. TAKAHASHI and K. HARADA..... 1
- Controlling the flowering period of *Phalaenopsis* I
On the flower bud differentiation and development in *Phalaenopsis*
.....I. ITO, A. MOMIYAMA, T. NAMIKI and S. TAKASHIMA..... 9
- Studies on production of vegetable crops in water culture I
Effect of summer heat T. NAMIKI, S. NISHI, N. ITO,
K. YAZAKI, N. SUGIMOTO and S. TAKASHIMA.....13
- Nuclear phenomena in zoosporangia and its germination of *Phytophthora*
infestans f. sp. *infestans* Waterhouse K. KATSURA.....20
- Comparison of the mechanism of the development disease symptoms between green
mold disease and brown rot of Citrus
.....H. MASAGO, K. TAKIMOTO and K. KATSURA.....25
- Morphology of abnormal zoosporangium of *Phytophthora capsici*
cultured in the supernatant of cucumber juice
.....Y. MIYATA and K. KATSURA.....33
- A new aspect of protection method for *Phytophthora* and *Pythium* disease by
nonionic surfactants
..... Y. MIYATA, K. ABE, S. NISHI,
T. NAMIKI, K. KATSURA and S. TAKASHIMA.....37
- Formosan Agromyzidae (Diptera) M. SASAKAWA.....43

Forestry

- Electron microscopical studies on the porous structure of cell wall I
The difference in porous structure of various layers of the cell wall
.....S. YATA and M. MUKUDAI.....83

Basic studies on the propagating *Cryptomeria* tree based on the grafting
.....T. HONJYO.....89

Agricultural Chemistry

Cation exchange capacity of root and nutrient uptake by plant
.....S. MORITA... 142

Selective amination of β -cyclodextrin at the C-2 position
..... K. TAKEO, F. YAGI and T. KUGE... 159
