## CONTENTS

INTRODUCTION.....	1
-------------------	---

### Chapter I

#### ANALYSIS OF COMPONENTS IN LEGUMINOUS SEEDS

Section 1	Amino Acid Composition of Protein Fractions from Legume Seeds.....	6
Section 2	Nutritional Components, Protease Inhibitor and Hemagglutinin in Legume Seeds.....	15
Section 3	Mineral and Phytic Acid Contents of Legume Seeds.....	23
Section 4	Chemical Composition of Winged Bean.....	27
Section 5	Preparation of Bean Milk (Aqueous Extract) from Winged Bean and Its Gelation Properties.....	34
Section 6	Antinutritional Factors of Winged Bean.....	40

### Chapter II

#### $\alpha$ -AMYLASE INHIBITOR FROM PHASEOLUS VULGARIS

Section 1	Occurrence of $\alpha$ -Amylase Inhibitor in Legumes and Its Activity Changes.....	48
Section 2	Purification and Characterization of $\alpha$ -Amylase Inhibitors from <u>Phaseolus vulgaris</u> Seeds	
Part A	An $\alpha$ -Amylase Inhibitor from Cranberry Bean.....	54
Part B	An $\alpha$ -Amylase Inhibitor from Kintoki Bean.....	62

Section 3	Specificity of Cranberry Bean $\alpha$ -Amylase Inhibitor and Its Formation of a Complex with $\alpha$ -Amylase.....	65
Section 4	Chemical Modification and Enzymatic Digestion of Cranberry Bean $\alpha$ -Amylase Inhibitor.....	75
Section 5	Immunological Characterization of Cranberry Bean $\alpha$ -Amylase Inhibitor.....	87
Section 6	Intraluminal Movement of Cranberry Bean $\alpha$ -Amylase Inhibitor.....	96
Section 7	<u>In Vivo</u> Action of Cranberry Bean $\alpha$ -Amylase Inhibitor.....	107
	SUMMARY AND CONCLUSION.....	119
	ACKNOWLEDGEMENTS.....	124
	REFERENCES.....	125
