

THE SCIENTIFIC REPORTS OF THE KYOTO  
PREFECTURAL UNIVERSITY  
AGRICULTURE NO. 20

**Contents**

**Agriculture**

- Investigations on the cause and control of physiological dropping in the Japanese persimmon fruits. I. The time of fruits dropping and abscission layer formation.....Y. SOBAJIMA and M. TAKAGI..... 1
- Studies on "Abnormal defoliation" of Satsuma orange trees under sand culture.  
.....M. ISHIDA, Y. SOBAJIMA and Y. YAMAMOTO.....12
- Effects of gibberellin treatment on the seedlessness and berry enlargement of Muscat Bailey A grapes.....A. INABA, Y. SOBAJIMA and T. MIYAHARA.....21
- Studies of reproduction in certain solanaceous fruit-vegetables. I. The effects of various substances on pollen germination in *Solanum Melongena* L. ....T. HIROSE, M. TAMAI, T. DOHI and S. TAKASHIMA.....25
- A new method for the numerous formation of zoosporangia in *Phytophthora* spp. ....K. KATSURA, Y. MIYATA and T. MITANI.....32
- Mycerial growth and zoosporangial formation of *Phytophthora capsici* LEON. under poor nutritional conditions. (Preliminary report).  
.....H. MASAGO, H.KONDO, M. IMANISHI and K. KATSURA.....37
- Movements of zoospores of *Phytophthora capsici* LEON. VI. The relationship between swimming activity of zoospores and formation of miniature zoosporangia.....Y. MIYATA, K. KATSURA and S. URABE.....44

**Forestry**

- On the exactitude of making a contour map and of classification of forest types by the Stereotope  
.....M. IMANAGA, D. MARUOKA and A. YAMAMOTO.....50

The diffusion of solute through wood saturated with water II	
Effects of temperature on the diffusion of electrolytes	
.....M. FUKUYAMA and T. SADOH.....	57
Studies of Plastic-Soil-Concrete I .....	K. OOTE.....68

### Agricultural Chemistry

On the seasonal change of chemical properties of soils and inorganic	
composition of leaves in citrus groves in northern part of Kyoto	
Prefecture .....	S. MORITA, A. AOKI, T. HATTORI, K. FURUI and T. OKA.....78
Pektolytische Enzyme.....	T. NAKAHAMA.....83
