

THE SCIENTIFIC REPORTS OF THE KYOTO
PREFECTURAL UNIVERSITY
AGRICULTURE NO. 28

Contents

Agriculture

- Studies on the improvements by means of breeding of the genus *Coix* as
fodder crops XVI
On the character manifestation of the *New Coix* strains grown under
submerged field.....M. MURAKAMI, H. NAKANISHI and Y. HACHITANI... 1
- Studies on the yield stability viewed from the point of character manifestation
variability of crops II
The effect of environmental factors on variabilities of several characters
in rice varietiesM. MURAKAMI, H. NAKANISHI, S. MORI and M. NAKANO... 10
- Studies on the fruit development of japanese persimmon (*Diospyros Kaki* L.) III
Translocation and accumulation of photosynthates
..... Y. SOBAJIMA, M. ISHIDA, A. INABA and K. MASUI... 18
- Studies on production of vegetable crops in water culture XIII
Effects of air- and nutrient solution-temperatures on growth of tomato seedlings
.....S. TAKASHIMA, S. FUKUI, S. NISHI and T. NAMIKI... 24
- Studies on production of vegetable crops in water culture XIV
Effects of different levels of dissolved oxygen supply at different stages of
growth on growth and yield of the tomato
..... T. NAMIKI, M. FUKUSHIMA, S. NISHI and S. TAKASHIMA... 31
- The action mechanism of cytokinin in breaking dormancy of gladiolus corm.....S. YAZAWA... 40
- Presence of poly(A)-containing messenger RNA in soybean and *Phytophthora* spp.
..... M. YOSHIKAWA and H. MASAGO... 51
- Evaluation by specific inhibitors of metabolic dependence of asexual
differentiation processes in *Phytophthora capsici*
.....M. YOSHIKAWA, H. TANAKA, Y. MIYATA and H. MASAGO... 57
- Inability of tobacco callus to express resistance against avirulent race of
Phytophthora parasitica var. *nictioanae* and various non-pathogenic fungi
.....M. YOSHIKAWA, M. MIYAZAKI, S. SHIOJIRI,
T. TSUKADAIRA and H. MASAGO... 63
- Relationships between shell strength and several characters in eggs
..... Y. KUNIMATSU and A. KOMATSU... 68
- Comparison of the ordinary method and the Van Soest method on
analysis of roughages
I Comparison of the methods with different stages of soiling oat and
Italian ryegrass.....Y. KOJIMA, A. USAGAWA, Y. KUNIMATSU and A. KOMATSU... 76

Comparison of the ordinary method and the Van Soest method on analysis of roughages	
II Comparison of the methods with grass and legume species Y. KOJIMA, T. BANDO, Y. KUNIMATSU and A. KOMATSU...	81

Forestry

The diffusion of solute through wood saturated with water IV (2) On the diffusion rates of the univalent chlorides	M. FUKUYAMA... 86
Studies on the historical development of the selection forest on the forestry of Imasu district in Gifu Prefecture (I).....	R. MOTOYOSHI... 94
Relation between air pollution and vitality of tree in Kyoto	T. HONJYO... 109

Agricultural Chemistry

Studies on organo-mineral complexes in soils	K. YONEBAYASHI... 121
The homogeneity of the purified dialysable proteinase inhibitor from eggplant exocarp.....	F. IBUKI, M. TASHIRO, M. YAMADA, M. MIYOSHI and M. KANAMORI... 172
