

# The Scientific Reports of the Kyoto Prefectural University

## Agriculture No. 40

### Contents

#### Agriculture

- Embryo culture of dateplum (*Disopyros lotus L.*)  
.....A. KITAJIMA, R. LIANG, M. ISHIDA and Y. SOBAJIMA.....1
- Calcium concentration in tomato fruits grown  
in water culture in relation to incidence of blossom-end rot  
..... S. TERABAYASHI, Y. MIYAOI, T. TAKAHASHI and T. NAMIKI.....8
- Traditional vegetable growing in the Embu District, Kenya .....S. YAZAWA and S. HIROSE.....19
- Measuring deformation of egg shell by Testing machine (Tensilon UTM-4L).....34

#### Forestry

- A comparison of east-and west-facing slopes for pollen,  
female and seed production at aged Japanese white oak stands  
..... H. SAITO, H. KAWASE and M. TAKEOKA.....39

#### Agricultural Chemistry

- Studies on the application of composted sewages sludges (Part 1) :  
Heavy metal contents and change in their chemical forms after land application  
..... H. YAMADA, T. HATTORI and H. KOKA.....48
