

The Scientific Reports of the Kyoto Prefectural University

Agriculture No. 41

Contents

Agriculture

- Morphological studies on the young fruits surface in some *Diospyros kaki* cv.
..... D. H. ZHUANG, M. ISHIDA, and A. KITAJIMA 1
- Growth of, and nutrient uptake by tomato plants
cultured in phosphate-free nutrient solution during day or night
..... S. TERABAYASHI, I. MURAMATSU, T. INADA and T. NAMIKI..... 9
- Vegetable production and the problems involved therein in the Lake Kivu area, Zaire
..... S. YAZAWA and S. HIROSE16
- Seasonal changes in interior quality of eggs from retail store in Kyoto City
..... Y. NISHIMURA and Y. KUNIMATSU40

Forestry

- A comparison of different ages for the male flower, pollen,
female flower and seed production of *Quercus mongolica* var. *grosseserrata* stands
..... H. SAITO, H. IMAI, T. NAKAGUCHI, C. KUGO, H. KAWASE and M. TAKEOKA46
- Water uptake in cuttings of Cha Zi Yuan Bai (*Sabina vulgaris*) and Zhang Zi Song
(*Pinus sylvestris* var. *mongolica*) as afforestation species on sands in Inner Mongolia, China
..... M. TOKUOKA59
- Dyeing and dimensional stabilization of xylem utilizing the sap flow of freshly-felled trees
..... I. IIDA, T. NOMURA and S. MORIOKA64
- Bending creep in the direction perpendicular to grain during microwave irradiation
..... I. IIDA71

Agricultural Chemistry

- Studies on the land application of composted sewage sludges (Part. 2) :
Decomposition of composted sewage sludges after land application
..... H. YAMADA, T. HATTORI and K. KINOSHITA77
- Construction of cDNA library using electro-transformation
..... K. TANAKA, M. WAKAURA, T. MASUMURA and S. FUJII86
