

THE SCIENTIFIC REPORTS OF THE SAIKYO UNIVERSITY

AGRICULTURE No. 5

Contents

Studies on root-systems of Kaki trees	
[I] Root-systems of mature trees growing in the plain	M. KIMURA 1
[II] Root-systems of mature trees growing in the slope	M. KIMURA 8
[III] Root-systems of mature trees growing in the fertilizer experimental orchard	M. KIMURA 19
Preliminary report for delaying the sprout of Kaki trees with some chemicals	: M. KIMURA · N. KUNIMURA 26
Studies on the Pawpaw (<i>Asimina triloba</i> DUNAL), I	
1) Flowering season and microsporogenesis in Pawpaw.	
2) Insect visitors on the flowers of Pawpaw.	Y. SOBAYIMA · N. KUNIMURA 33
The effects of warmbath and H ₂ O ₂ treatment on the cuttings of grape	J. FUMOTO 47
Studies on the interspecific differences in Cucurbita [XI] The relationship between the maturity of flowers and the amount of water, reducing sugar and starch contained in pollen and pistil	S. TAKASHIMA · T. HIROSE 53
On the relation between kind of winter crop and yield of paddy land rice	S. NARA 58
Studies on form of iron and iron-containing material in living tissue [VII] On lactoperoxidase (part 1)	M. KANAMORI · S. YUSHIO 63
Analysis of the fatty acids of the oil of <i>Reinhardtius matsuurae</i> by paper chromatography	O. HIRAYAMA · M. NODA 73
Studies on the durability of wood, V Shrinkage and swelling of old timbers, about 300~1,300 years ago (<i>Chamaecyparis obtusa</i> ENDLICHER)	J. KOHARA 81
An experiment on the ignition point of wood	J. KOHARA · R. EMI 89
Studies on the white root rot of tea, I.	T. ABE · M. KONO 93
The ecological studies on the corn-linear leaf-miner, <i>Phytomyza nigra</i> MEIGEN. (I) The temperature limit of the activity and the diurnal activity of the corn-linear leaf-miner	M. SASAKAWA 106
A new <i>Pachyneuridae</i> from Japan (<i>Diptera</i>)	H. ISHIDA 117
Studies on Phytophthora disease of economic plants, V. Some informations on the fungus causing the Phytophthora rot of eggplant fruits.	K. KATSURA · R. TOKURA 119
Studies on the artificial induction of polyploid tea plant	K. HARADA · M. MURAKAMI · O. UMEKAGE 135
On the Influences of drought conditions upon the growth of soybean plants, with special regards to those upon flowering	T. WATANABE 142

Die Untersuchungen über der Rassen von Japanischen Rotkiefern.	
[III] Die morphologische Veränderung der Nadeln von Kiefern in Baumalter	T. YAMASAKI · M. IWAMURA · K. OGASAWARA · 155
On the fattening ration for the purpose of producing choice grade beef from Japanese native cattle (Black breed) at Kamigamo, Kyoto.	A. KOMATSU · 164
Studies of "Renge" (<i>Astragalus sinicus</i> L.) as a soiling crop.	
[I] The relationship between the harvesting time and the chemical composition of "Renge"	A. KOMATSU · K. KOSUGI · Y. KUNIMATSU · 173
Studies on the manufacture of chinese type pork-steak (Yakibuta), 1.	
On the osmosis of NaCl in the salting	N. TAMIYA · A. KOMATSU · 179
Studies of micro-organisms concerned in the retting of vegetable fiber materials. (Part V) On the influence to the activity of retting solution of hemp materials by heating them before every steeping.	
	T. NAKAHAMA · H. ISHIDA · 183
